# STEINWAY PRE-EMINENCE!

The unique position of piano leadership which the STEINWAY piano occupies is universally conceded.

The history of the STEINWAY shows that it is the knowing how, the understanding how to use successfully the various materials necessary to produce a perfect piano.

The STEINWAY is something more than a combination of woods, metals and felts. There is about it a personality, an individuality, a humanness which is characteristic and appealing.

THAT IS WHY THE STEINWAY LEADS!
