The piano is the

# STEINWAY

PROKOFIEFF is one more of that vast galaxy who have found, in the Steinway alone, that quality of touch and tone, and that durability, under exacting conditions, which concert work requires.

The qualities that endear STEINWAY to so many great musicians are surely the identical qualities demanded of the piano for the critical home.

There is a STEINWAY awaiting you here, of just such enduring charm for your home.

Unusually convenient terms may be arranged, and other makes will be accepted in exchange as part payment.

Sherman,  Clay & Co.
