Teichmüller System of Pianoforte Playing

MISS ROSA BLACKMORE is recognized as one of Professor Teichmüller's most successful pupils, having studied under him in the Leipzig Conservatorium of Music for 4 years. Being the only authentic exponent of the above system in Portland, Miss Blackmore would like to inform those intending to study under Professor Teichmüller that it is imperative that they have had a course of study in this system, in order to obtain his immediate personal instruction. Much time can therefore be saved by taking this course beforehand with one of his pupils.
