STEINWAY

One of the contributory reasons why the Steinway Piano is recognized as

The World's Standard

may be found in the fact that since its inception it has been made under the supervision of members of the Steinway family, and embodied in it are certain improvements found in no other instrument.

It is not merely the *combination* of wood, felts and metals, but it is the knowing *how* to combine them in order to produce the highest musical results which has made the Steinway the piano by which all others are measured.

THE STEINWAY

is a work of creative art which stands alone—unqualifiedly the best.
