The Steinway Piano

TO the fine soul in search of expression, the Steinway comes with an untold wealth of treasure. Responsive as the wind harp to the wind, its wonderful mechanism has an almost human understanding of every mood. In the Steinway's tonal range each note of the human voice finds its perfect complement, sustaining it with sympathetic sweetness and flawless purity. In craftsmanship, the Steinway is as near perfection as human skill can make it. And here is a fact for your consideration: you can buy a Stetnway, with all its superior worth, at a moderate price and on convenient terms.
