FRANCIS W. PETTYGROVE,
PIONEER 1843.

DESCRIPTIVE.

Amos L. Lovejoy, of Massachusetts, and Francis W. Pettygrove, of Maine, the first a pioneer of 1842 and the second a pioneer of 1843, acquired the original townsite of Portland in 1845.

The question of naming the place was discussed at different times. Mr. Lovejoy wanted to name it Boston because it was the principal city of his native State. Mr. Pettygrove desired to name it Portland for the same reason. Upon failing to agree, Mr. Pettygrove suggested the matter be decided by tossing a copper cent, to which Mr. Lovejoy agreed; whereupon Mr. Pettygrove produced a copper cent of the year 1835, and his choice, viz.: heads, came up twice, thereby winning for the future city the name of Portland.

This narrative and the pictures presented herewith are from the Tree in Historical Society's records and are authentic.

AMOS L. LOVEJOY,
PIONEER 1842.
