Dear Friend:-

Have your letter of the 30th ult. and note what you say regarding samples of grains, etc. I regret to say that we are stripped bare of samples--the Lewis & Clark Fair people, the Oregon Bureau of Information and McKinney of Chicago have ~~take~~ practically all of our samples. However, if I can scare up some good duplicates will have them prepared and forwarded after we are through the rush of our silage work.

Thanking you for the kind interest you take in our welfare,
I beg to remain,

Faithfully yours,

James Withycombe.
