

PACIFIC REGALIA CO.
PORTLAND, OREGON.

Mar. 4. 1904.

My dear Mr Dosch.

Enclosed you will find a copy of my appeal to the public of Oregon to force those charged with money donated or raised in Oregon to spend it for the building up and betterment of Oregon and not the East. If we have any money to spare let us help our neighbors Wash. and California who are nearer than the East. I propose to enlist in this every labor union, every grange, every fraternal society, every newspaper, politicians and minister and business interest to make this common fight, and of course this instance is only a test case.

There is no antagonism to the fair, all of us will work for that heartily and cheerfully,, but we want a fair for the Pacific Northwest with all the emoluments going to the Pacific Northwest. See if we can stop corroption, and let honesty prevail.

I am sure you understand me, and I write this so you will, because I know you do not belong to the crowd meant to be hit, and I do not want to hit you.

Sincerely yours

P. Gardner.
