My dear Mr. Doser!

We received your kind letter and have started to prepare a memorial but we find it impossible to get it off by tomorrow Friday as it would have to be on the way by Saturday - the next steamer leaves 2 P. M. - now in case this would be too late as you would have the goods only by 27th or 28th will you please write us by return of mail in case it is too late and we ship the goods direct - of course we would like to ship them today but I see no way to get it ready.

We note all you say and thank you very much for all you have done and intend to do for us. We shall also make a small shipment for the permanent exhibition at Portland with the same steamer.

Now if you could remember or find another memorandum of goods given away at Japan you would greatly oblige me by sending the same - as for I do remember the

animals cushions - were given away  
and we left them out of the bill & sent  
but have nothing heard ever since.  
I hasten to get this letter off - when  
do you leave for San Luis?

With kindest regards from us both  
and best wishes  
Yours truly

M. R. Lusk

My dear good friend

To make sure that there is no mis-  
understanding I add these few lines:

We find it utterly impossible to get the St  
Louis exhibit ready for steamer sailing  
to morrow morning for Portland - To send  
by Rail would take perhaps a week or more  
so we must take our chances for steamer  
leaving here March 23<sup>d</sup> - If you think  
this will be too late, kindly write us a few  
lines and tell us if we may send the  
goods direct to St Louis, and to whom they  
should be addressed in such a case -

We appreciate your kind endeavors for us to  
the utmost, and hardly know how to express  
our heartfelt thanks for all you have done &  
still do for us -

Yours very sincerely D. H. Lusk

If you think your reply will not reach us in time to prepare  
for shipment on Mar 22<sup>nd</sup>, kindly telegraph at our  
expense.
