

Electrical Installation Company
Incorporated 1893
Engineers-Contractors.

*Complete Electric Railways, Power and Lighting Plants.
Track Work, Paving, Buildings and Concrete Construction.*

J. A. Brett
General Manager.

Monadnock Building, Chicago, May 28, 1904.

Mr. Henry E. Dosch,
Portland,
Oregon.

Dear Sir:

On the 15th ultimo, we wrote you concerning the construction of the electric railway, which the Hood River Development Company propose to build, and in which we understand you are directly interested, but not having been favored with a reply from you, we again wish to place ourselves before you as Engineers and Contractors for the complete design and construction of Electric Railroads.

If it is too early at this time to take up question of construction, may we request that you advise us as to proper time to correspond with you relative to this matter, as we are very anxious to have an opportunity to submit proposal for doing at least part of this work.

Thanking you in advance for some expression, we remain

Yours very truly,

ELECTRICAL INSTALLATION CO.

J. A. Brett
Gen. Mgr.

~~PORTLAND OREGON~~
St. Louis, Mo.

Electrical Installation Company,
Chicago, Ill.

Dear Sirs:

Your letter of May 18th, addressed to Portland, was forwarded to me here. I replied to your original letter of 15th of April, that the Electric Railway Construction for the Hood River Development Company, was in the hands of its President, Mr. J. H. Batchelder, of Portland, Oregon, to whom you must apply for information concerning this work.

Yours truly,

Commissioner General.
