Mr. Henry E. Dosch

Lewis and Clark Centennial Exposition Division of Exhibits

Portland Oregon

My dear Mr. Dosch

Your kind notification that a gold medal had been awarded to me on my hindered settling classifier is duly received. I may say that the notification was very gratifying indeed to me.

I shall long remember the delightful summer I passed at the Fair in working for Dr. Day on his black sand problem for the Pacific Coast miners. We expect to get out a report that will have a good deal of value in it for them.

With Kind regards Very Truby Grs Robert & Ruhards
